

A Program of neuroTree

“We are a passionate team of clinicians and peers serving through lived experience.”

SERVICES

Whole-Person Assessment: A comprehensive evaluation of all aspects of an individual's life. This includes medical, mental health, social, economic, religion, and many other factors. The purpose being to create a plan of support that meets most if not all (within the scope of the available resources) of the individual's person centered wants and needs.

Health Risk Assessment: A questionnaire assessment of health status, genetic testing, and analysis for potential areas of improvement for physical and behavioral health, including personalized feedback about actions that can be taken to reduce risks, maintain health, and prevent disease.

Nutrition Management: An individualized nutrition screening and assessment, developing and implementing a nutrition care plan, and monitoring and adjusting the individual's response to the nutrition care delivered.

Program available for ages 3-65+
